Brief Description: This project is about creating a catalogue on the monuments on the Northern Ridge and the surrounding Civil Lines area. The sites include: Flagstaff Tower, Chauburji Masjid, Qudasia Bagh, Mutiny Memorial, Ashokan Pillar, Khooni Khaan Jheel, Pir Ghaib, the old baoli, the Viceregal Lodge and Nicholson Cemetery. The research work and data collection work have been completed. The most attractive feature of the catalogue would be the sketches of the monuments by our group member, Devesh. Students will be working on the compilation work and the designing part. Several design patterns for the catalogue will be created with the help of experts at IGNCA. The project aims at inculcating knowledge about surrounding history.
