

MASTER OF MATHEMATICS EDUCATION

*A Joint Degree under the Meta University Concept by
University of Delhi & Jamia Millia Islamia*

META UNIVERSITY : CONCEPT

The Meta University concept is a model of distributed learning that allows education to be accessible to wider range of students by leveraging of Information technology to make available content and pedagogical avenues in new ways.

Under Meta university concept various universities, educational institutions and research centers jointly offer innovative courses of study to students by drawing upon the established excellence of the partners. In nutshell, Meta University concept utilizes, exploits and creates synergy between programmes, activities and institutions.

This concept marks a paradigm shift in Higher Education in India. It is based on the premise that the 'Whole is Greater than the Sum of the Parts'. It serves as a platform for communication, collaboration and co-operation that optimizes scarce resources as well as free students from the tyranny of boundaries and the constraints of location. Using India's growing IT tools, the Meta University concept combines the best in traditional systems with the new opportunities for knowledge enhancement.
