

Readings for Classes from 1st April-14th April for paper II.2: Understanding real life situations through Discrete Mathematics

Theory Part:

In this duration, students are asked to prepare following topics from 'Discrete Mathematics with Graph theory' by Goodaire and Parmenter;

Section 14.2: Colouring of graphs, Chromatic number, Four Colour theorem, Theorem 14.2.3 & 14.2.4

The assignment related to the topics and reading material for reference will be mailed to all the students. All the queries and doubts will be solved on 07th April & 10th April through Zoom/skype class at 3:00 p.m.

Project Discussion: As all the students have already mailed their project details, any discussion regarding the same will be done on 06th April & 13th April through zoom/skype class only at 3:00 p.m.
