

Computer Cluster Lab

Lab Objectives:

1. To support the research and development activities for solving real life problems having computational aspects.
2. Focuses mainly on research domain problems that need High Performance Computing(HPC) facility.

Lab Supervisor:

1. Sachin Kumar, Assistant Professor, Cluster Innovation Centre, University of Delhi.
2. Rajneesh Talwar, Computer Centre, Cluster Innovation Centre, University of Delhi.
3. Ravi Kumar, Computer Centre, Design Innovation Centre, University of Delhi.

Lab Introduction:

This lab is Equipped with Apple iMACs, DELL All in One with both Linux and Windows Operating Systems with servers that enable intranet facility and website hosting. The Lab holds the responsibility to run and manage various official websites and blogs for the Cluster Innovation Centre and support high performance cluster and big data analytics facilities for other department of university such as computer science.
