

Schedule for Paper VI.1 (Linear Programming Problems)

Theory Classes:

- Revise Chapter 2 (Modeling with Linear Programming)
- Revise section 3.1, 3.2, 3.3 and 3.4 from chapter 3 (The Simplex Method and Sensitivity Analysis)
- Revise section 3.5 and 3.6.
- Revise chapter 4 (Duality and Post optimal analysis)
- Revise section 5.1,5.2 and 5.3 of chapter 5 (Transportation Model)

All the topics are covered from book entitled 'Operation Research: An Introduction' by Hamdy A. Taha.

Doubts and assignment will discuss through email. Also I will mail you some assignments related to these topics.

Project: Send me an abstract of your projects with group members. We will be discussing about the same on email or on google hangout.
