NOTICE

HackCIC - Local Hack Day: Share 2020!

HackCIC is a global, fully-virtual 12-hour hackathon where students can learn, build, and share together.

Let's do something interesting during this quarantine. We all have those side projects which we once upon a time started, but never got around to finishing, right? Well, now's your chance to get them over with!

Over the course of 12 hours, attendees will apply the long-pending finishing touches to their current projects and participate in an online global project showcase.

Not interesting enough? Well, we have got several workshops and fun activities in which the attendees will get to learn about *GitHub*, *Hacking Technical Interviews*, *Python*, and much more!

Needless to say, it doesn't matter if you're a beginner or an expert; all you need is a knack for learning.

We are partnering with *Microsoft*, *GitHub*, and *MLH* to bring you this wonderful opportunity. And of course, there are swags. Loads of them.

Event Schedule: Saturday, 11th April 2020, 9:00 AM IST to 9:00 PM IST

Registration Link: <http://lhd.mlh.io/join/3265>
