

## Summer Internship in Laboratory Research for Science Students

---

The **Centre for Science Education and Communication** plans to start and coordinate Summer Internship in Exposure to Laboratory Research for undergraduate science students who wish to take up or explore research as a career in future. This will help them connect the theoretical understanding to real laboratory experience and widen their horizon of thought to find innovative solutions to the real world problems and challenges of the society in future.

Applications are invited for the internship from first year and second year students of undergraduate science courses who are interested in a research career in future.

**Duration:** 16 June- 15 July 2016

**Selection:** Online application and interview

Students will be placed in a prestigious research laboratory of the University of Delhi for the duration of the internship. At the end of the internship, a report has to be submitted in the specified format. A certificate of successful completion will be given on receiving a satisfactory report from the research laboratory they are placed in.

### Application format:

- Name
- College
- Course
- Email
- Contact Mobile number
- Area/s of Research Interest
- Why do you want to join the internship? ( 100 words)
- A brief research proposal of the research problem they envisage taking up in future (Maximum Two pages including Title, Introduction, Objectives, Proposed methodology, Expected Outcomes, References)

The applications may be sent in specified format to [csec.events@gmail.com](mailto:csec.events@gmail.com) by **05 June 2016**. Shortlisted candidates will be called for an interview on **09 June 2016** as intimated through email/phone.
