TOPIC

***“A HISTORY OF
SPACEFLIGHTS
- JOURNEY TO
THE MOON”***

The popular non-technical and illustrated talk covers simple concepts and traces the history of spaceflight starting with the invention of rockets and ends with man's flight to the Moon.

SPEAKER

Mr. Rakesh Singh

Mr. Singh has worked for NASA's Johnson space Center in Houston through Lockheed Corporation for 22 years. He was heavily involved at several senior and important roles in the redesign of the Mission Control Center for the Space Shuttle and Space Station missions. The last 13 years of his career were spent at IBM where he was an IT executive.
